Introduction

Software Vulnerability Manager reimagines how software is secured by closing the gap between IT Security and IT Operations by providing industry leading security research, risk assessment and remediation through Software Vulnerability Manager's key components:

- **Research:** Keep up with the latest software vulnerability research and advisories from Secunia Research
- **Assessment:** Discover where software vulnerabilities are installed across your organization
- **Patching:** Remediate software vulnerabilities in third-party applications

New Features and Enhancements

The following table lists new features and enhancements for Software Vulnerability Manager. The Affected Module(s) column refers to the specific Software Vulnerability Manager module(s) affected by the new feature or enhancement.

| Affected Module(s) | Feature or Enhancement Description | Reference Number |
|--------------------|---|------------------|
| Assessment | Scanning on an Apple Mac will now skip Time Machine backup folders. To get this functionality, you will need to deploy the latest Software Vulnerability Manager Mac agent. | SVM-813 |

Resolved Issues

The following table lists resolved issues for Software Vulnerability Manager. The Affected Module(s) column refers to the specific Software Vulnerability Manager module(s) affected by the resolved issue.

| Affected Module(s) | Issue Summary | Reference Number |
|--------------------|---|------------------|
| Patching | Google Chrome Packages was missing from the SVM Patching view. | SVM-850 |
| Assessment | The problem with the Windows scanning agent, when running as a service, not reporting the correct distinguished name has been corrected. To get this functionality, you will need to deploy the latest SVM windows agent. | SVM-868 |

Product Feedback

Have a suggestion for how we can improve this product? Please come share direct feedback with the product team and vote on ideas submitted by other users in our [Customer Community feedback page for Software Vulnerability Manager](#).

System Requirements

Software Vulnerability Manager's User Interface will resize and adapt when being used on different devices. You can access the system from anywhere using any device, such as a smartphone or tablet, running Internet Explorer 11 or higher, Chrome, Opera, Firefox, Safari and mobile browsers with an Internet connection capable of connecting to <https://app.flexerasoftware.com>.

Legal Information

Copyright Notice

Copyright © 2018 Flexera.

This publication contains proprietary and confidential information and creative works owned by Flexera and its licensors, if any. Any use, copying, publication, distribution, display, modification, or transmission of such publication in whole or in part in any form or by any means without the prior express written permission of Flexera is strictly prohibited. Except where expressly provided by Flexera in writing, possession of this publication shall not be construed to confer any license or rights under any Flexera intellectual property rights, whether by estoppel, implication, or otherwise.

All copies of the technology and related information, if allowed by Flexera, must display this notice of copyright and ownership in full.

Intellectual Property

For a list of trademarks and patents that are owned by Flexera, see <https://www.flexera.com/producer/company/about/intellectual-property/>. All other brand and product names mentioned in Flexera products, product documentation, and marketing materials are the trademarks and registered trademarks of their respective owners.

Restricted Rights Legend

The Software is commercial computer software. If the user or licensee of the Software is an agency, department, or other entity of the United States Government, the use, duplication, reproduction, release, modification, disclosure, or transfer of the Software, or any related documentation of any kind, including technical data and manuals, is restricted by a license agreement or by the terms of this Agreement in accordance with Federal Acquisition Regulation 12.212 for civilian purposes and Defense Federal Acquisition Regulation Supplement 227.7202 for military purposes. The Software was developed fully at private expense. All other use is prohibited.

Disclaimer

Information in this document is subject to change without notice. Companies, names, and data used in examples herein are fictitious unless otherwise noted. The provision of such information does not represent any commitment on the part of Flexera. Flexera makes no warranty of any kind with regard to this material, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose.
